Subject: Get the Poison out of our River

Dear Portland Harbor Cleanup Public Comments,

Dear Ms. McCarthy and Members of Congress,

The proposed cleanup of Portland Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic.

A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that:

- Moves quickly and sustainably reduces contaminants causing harm to Willamette and Columbia River resources
- Includes ongoing monitoring and cleanup upriver and downriver from the site
- Contributes to healthy fish that are safe to eat for all people
- Holds polluters accountable for creating a safer Portland Harbor

These elements get us closer to the plan our communities deserve.  
And I deserve a clean, safe Portland Harbor.

The city goes to war against the toxic air from a couple of glass companies yet lets the river become unsafe for people to enjoy. Clean, safe water and air are BOTH vitally needed for a healthy city. PLEASE TOTALLY clean up the river so we can again swim, fish (and eat the fish), and enjoy our beautiful river without worrying about what toxins we are being exposed to.

Sincerely,
